

SOCIAL MEDIA MARKETING

How to post video content

The easiest way to share a video from the social dashboard is by linking a YouTube channel.

We recommend creating a YouTube account as this is the easiest way to store and share your videos.

To get started head over to www.youtube.com and look for the “Sign in” link.

If you don't have a Google account continue by clicking on the “**Create account**” link. Follow the instructions on the screen and finish setting up your Google account.

Note

If you already have a Google account you can sign in and continue to the next step.

Creating a YouTube channel

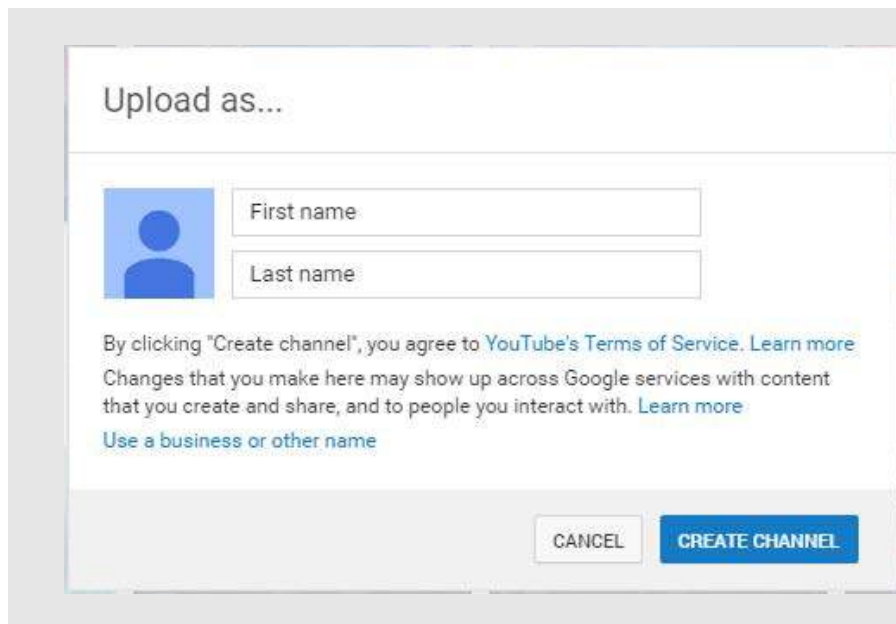

In order to upload a video you will need to create a channel.

Once you have logged in to your Google account on YouTube look for the “**Upload**” link, this is normally found in the top right of the screen.

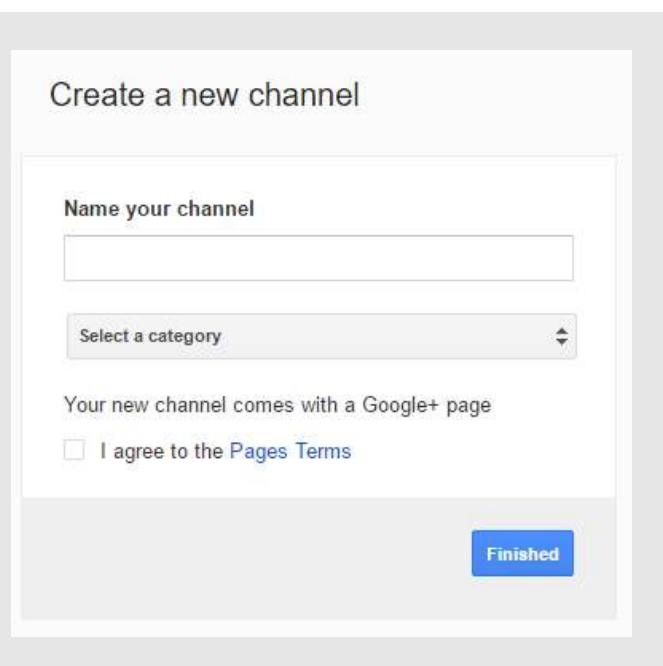

If you are new to YouTube and never created a channel before you should see the screen on pictured on the right.

If you would like the videos to be published with your name, just make sure the details are correct and click **“Create Channel”**.

The screenshot shows the 'Upload as...' dialog box. It has a title bar 'Upload as...'. Below the title bar is a profile picture placeholder (a blue circle with a person icon) and two input fields: 'First name' and 'Last name'. Below these fields is a paragraph of text: 'By clicking "Create channel", you agree to [YouTube's Terms of Service](#). [Learn more](#). Changes that you make here may show up across Google services with content that you create and share, and to people you interact with. [Learn more](#)'. Below the text is a link: '[Use a business or other name](#)'. At the bottom right are two buttons: 'CANCEL' and 'CREATE CHANNEL'.

The screenshot shows the 'Create a new channel' dialog box. It has a title bar 'Create a new channel'. Below the title bar is a section 'Name your channel' with an input field. Below the input field is a dropdown menu labeled 'Select a category'. Below the dropdown menu is a paragraph of text: 'Your new channel comes with a Google+ page'. Below the text is a checkbox labeled 'I agree to the [Pages Terms](#)'. At the bottom right is a blue button labeled 'Finished'.

If you would like to publish the videos under a business name or would like to name your channel click the link **“Use a business or other name”**.

You should now see the screen pictured on the left.

Select the account name you would like and click **“Finished”**.

Once you have selected your channel name you should see a success message, similar to the one pictured below.

Uploading a video to your channel

After you have created your channel or clicked upload (if you already have a channel) you should see the screen pictured on the right.

Follow the instructions on the screen and select the video you would like to upload.

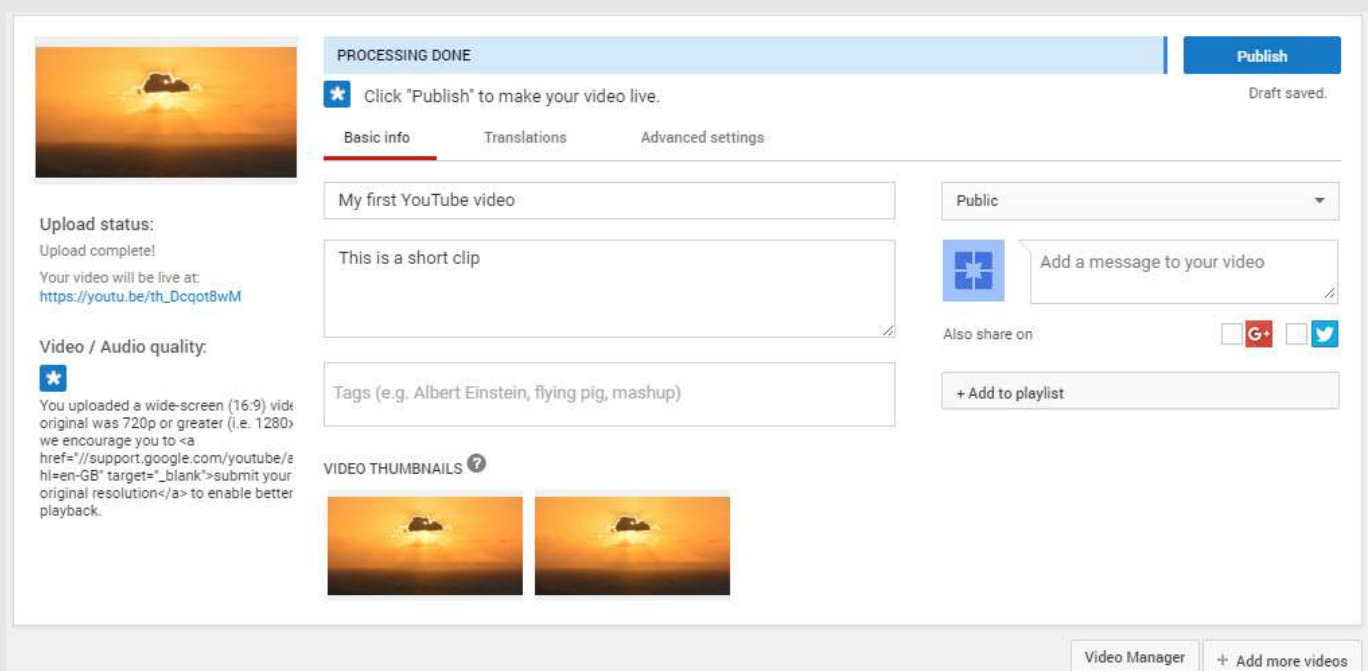

Once the video has been uploaded you should see the screen below.

Here you can set the title of your video, add a description and select a thumbnail.

Make sure the video is Public to be able to share it from the dashboard.

Once done just click **"Publish"**.

Next step ...

To add your YouTube channel to Content Research you'll need to know the Channel ID.

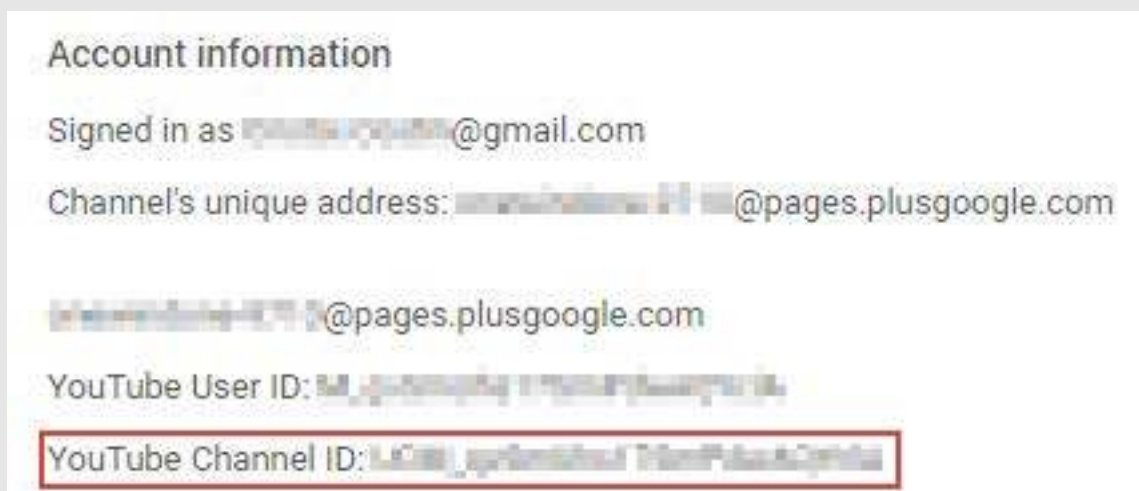

Finding your YouTube Channel ID

Option 1

Log into your YouTube account click on the round picture in the top right of the screen and **select "YouTube settings"** (the cog icon) on the drop down menu.

On the next page click on **"Advanced"** next to your account picture and you should see the screen below:

If you are having trouble finding this you can also try going to www.youtube.com/account_advanced, log in when prompted and it should take you to the right page.

Option 2

Log into your YouTube account and click on “My Channel” on the left side menu.

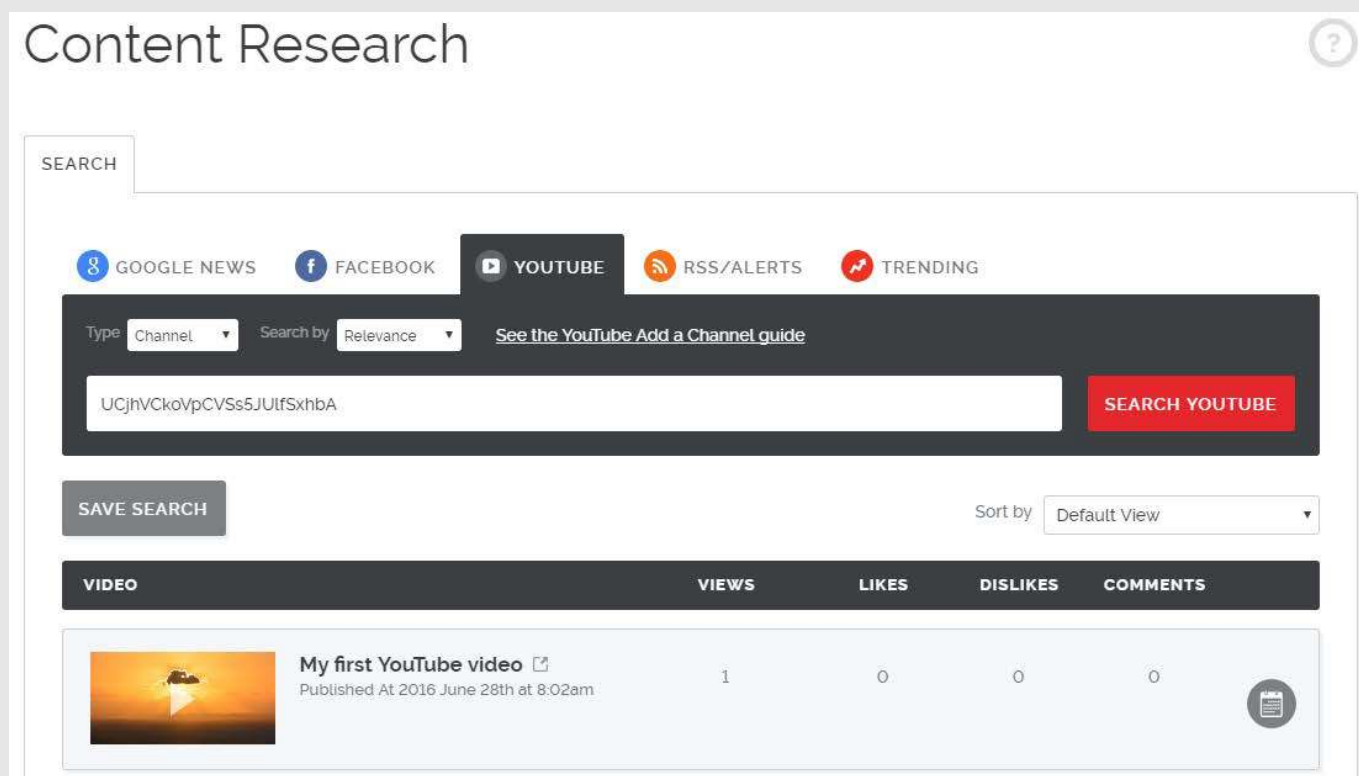

Next take a look at the URL displayed on your web browser.

You should see a series of letters and numbers, this is your channel ID.

... so you've got your unique ID,

now head over to Content Research, click the “YouTube” tab. Under type select “Channel”, paste your channel ID in the box and hit “Search”. You’ll be provided with a list of videos from your channel!

A screenshot of the 'Content Research' interface. At the top, there's a 'SEARCH' tab. Below it, there are navigation buttons for 'GOOGLE NEWS', 'FACEBOOK', 'YOUTUBE', 'RSS/ALERTS', and 'TRENDING'. The 'YOUTUBE' button is selected. Underneath, there's a search bar with 'UCjhVCKoVpCVSs5JUfSxhba' entered. To the right of the search bar is a red 'SEARCH YOUTUBE' button. Below the search bar, there's a 'SAVE SEARCH' button and a 'Sort by' dropdown menu set to 'Default View'. The main content area shows a table with columns: 'VIDEO', 'VIEWS', 'LIKES', 'DISLIKES', and 'COMMENTS'. The first row shows a video thumbnail with the title 'My first YouTube video', published on '2016 June 28th at 8:02am', with 1 view, 0 likes, 0 dislikes, and 0 comments.

Saving your YouTube channel in the dashboard

To get the most out of your YouTube channel we recommend saving it in the dashboard so you can easily access it in the future.

After you have successfully retrieved the videos from your channel (as explained above) all you have to do is click the **SAVE SEARCH** button.

You should now see the screen below. This gives you the option to name your search. We will call it "My YouTube Channel" and click "Save".

Name your search: [X]

Name

SAVE CANCEL

Name your search: [X]

My YouTube Channel

SAVE CANCEL

Next you will see that a new tab has appeared at the top of Content Research.

This is where your YouTube channel has been saved.

Content Research [?]

SEARCH [MY YOUTUBE CHANNEL]

GOOGLE NEWS FACEBOOK YOUTUBE RSS/ALERTS TRENDING

Search [SEARCH GOOGLE]

Click on the new tab you have just created.

You should see a list of videos from your channel.

Posting a video from your YouTube channel

Head over to Content Research and click on your saved YouTube Channel.

Clicking the Scheduler icon to the right of a video will allow you to choose what platform you would like to post to and when you would like to post to go out.

Follow this two simple steps every time you want to post a video from your channel, it's as easy as that!
